PEARL DRUMS

ADP-30

ADAPTER

Instruction Manual

Set-Up Example

ADAPTER(ADP-30) + TOM HOLDER + CYMBAL HOLDER + STAND

The ADP-30 features three adjustable-width clamps that allow tom holders, cymbal holders, and accessories, of varying diameter, to be conveniently attached to your kit without the need for extra stands. The clamps are quick-release for easy assembly and removal.

- Three quick release clamps accepts 9.5 ~ 28.5mm (3/8"~11/8") diameter tubes.
- Generous spacing between clamps accommodates virtually all brands of holders.
- Compatible with Pearl Stop Locks.

CAUTION

To obtain best performance and prevent slippage, keep the clamps parallel to the body of the ADP-30 by tightening Wing Nut and Knurled Nut equally.
