Height 535 mm

This compactly folding cello stand is an excellent stand for use on the road or at home. It looks good and stores your cello safely until your next performance. The surfaces, which come in contact with the instrument, are covered with an attractive rubber/cork material to protect your instrument. There are three different width settings for the body of the instrument. Adjustable end caps protect the floor and ensure the stand is stable. The useful bow holder can be folded away to facilitate transport.
