

A12 Ultra Dlx Lightburst

sku: 053421

Crafted in Canada, the A12 combines the best of both acoustic and electric worlds in an elegant and perfectly balanced design. Its chambered mahogany body, topped with a solid cedar top, offers natural warmth and generous resonance, making it ideal for discerning players. The hard rock maple neck and Richlite fretboard, a high-density composite material, provide precise and smooth playability. Equipped with a Seymour Duncan SSL-5 single-coil pickup at the neck and an integrated preamp system, the A12 allows for seamless navigation between acoustic, electric, or a mix of both sounds, thanks to its dedicated dual outputs. Its lightburst finish beautifully highlights the instrument's curves with subtlety, while the high-quality components ensure it's a reliable, inspiring tool, ready for both stage and studio.

Body : Chambered Mahogany

Orientation : Right

Top : Solid Cedar Top
