- Power Supply: 9V DC, 100 mA, 2.1 mm x 5.5 mm, center negative (not included).
- Dimensions: (W x L x H): 56 x 96 x 20 mm
- Weight 420 g
- Designed in Denmark

Description

The Carl Martin Dual Compressor Limiter continues the legacy of a celebrated compression design - musical, smooth and sustaining - now reimagined with two presets for greater flexibility. Studio-grade compression, shared THRESHOLD and DRY blend, and individual COMP/LEVEL per side, it delivers everything from subtle dynamic control to rich, sustaining squeeze. A compact pedal that captures the spirit of a legendary approach to compression, with more versatility and headroom for modern players.
