ALESIS DRUMS × Zildjian

Iconic Cymbal Sound for the Modern Musician

We've partnered with Zildjian® to bring the most iconic cymbal sounds straight to your Nitro kit. Hand-selected, expertly captured, fully integrated, and ready to play.

SOUND FROM THE SOURCE

Zildjian® cymbals have shaped the sound of music for centuries. This collection starts at the source: real cymbals hand-selected from the exclusive Zildjian Artist Vault, each cymbal studio-captured in stunning detail. The result is a sound library that adds new forms of depth, expression, and authenticity to your e-kit.

THE NITRO LINE EVOLVES

Expertly captured and timelessly authentic, we've reimagined the cymbals of the Nitro line to include iconic Zildjian® branding and sounds on the following kits:

- Nitro Pro
- Nitro Pro XL
- Nitro Ultimate
- Nitro Ultimate XL

FREE EXPANSION PACK DOWNLOAD WITH EACH KIT

The Zildjian® Session Mix Vol. 1 expansion pack is included (a $99 value) with every qualifying Zildjian® Alesis kit. Nitro kits can be used to trigger these expansion pack sounds through the included BFD Player software on Mac® or PC. This sound expansion pack download is also available for purchase separately for existing users or non-Zildjian® Alesis buyers, with additional Zildjian sound packs continuing to expand the library over time.
