DAP PL-07

*Dynamic instrument microphone -
black*

DAP

EAN: 8717748032355

The DAP PL-07 is a slim black design cardioid dynamic microphone. It picks up sounds in the direction it is being pointed, and cancels out any sound coming from behind it. This limits background noise from being picked up by the microphone and prevents feedback up to a high gain level. It is developed for capturing instruments in live situations, such as guitar amps, bass amps, acoustic guitars, saxophones, snares, congas and woodwinds.

For best results, we recommend that you keep the instrument a short distance from the PL-07. It can handle high sound pressure levels without distortion due to its high maximum SPL. A six meter long XLR cable and leather pouch are included.

Special features:

- Cardioid microphone for live instruments
- Cancels any sound coming from behind
- No feedback up to a high gain level
- Suitable for instruments at live situations
- Can handle high sound pressure levels

Specifications:

Outputs

Microphone Output	1
Microphone Output Connection	3-pin XLR
Microphone Impedance	600 Ω

Wireless Specifications

Wireless Microphone	No
---------------------	----

Audio Specifications

Microphone Type	Dynamic moving coil
Microphone Sensitivity	1.7 mV
Polar Pattern	Cardioid
Max. SPL	137 dB
Frequency Response Minimum	40 Hz
Frequency Response Maximum	16500 Hz
Phantom Power	No
Microphone On/Off Switch	No

Mechanical Specifications

Height (mm)	32 mm
Width (mm)	32 mm
Length (mm)	157 mm
Diameter	32 mm
Housing	Aluminium
Colour	Black
Weight	0.245 kg

Included Items

Included Cables	XLR 3P 6m
-----------------	-----------
